

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 9 ~ Issue : 4 ~ Ser.-2

p-ISSN : 2320-9356

Contents :

High Performance of Commercial Solar Cells Stacked by Crystalline p-n Silicon Nanowires	01-06
Optoelectrical structural properties of Zinc telluride thin films grown by chemical bath deposition method	07-13
Smart Cradle System for Baby Monitoring	14-17
IRIS Biometric Based Voting System	18-23
Implementation of Mechanistic Approach to Design Of Highway Pavements In Nigeria - Utilizing The Nigerian Highway Manual	24-35
A Mechanism for Predicting Cyber Bullying Activities on Social Media Using Machine Learning Approach	36-41
Survey on Iot for Future Smart Systems: Review of Present Challenges, Next Generation Trends and Perspective	42-45
Automated Phototherapy Model for Neonatal Using Transcutaneous Bilirubinometer	46-49
Towards thermophilic anaerobic digestion application in Attica, Greece: a feasibility study	50-57
A Reliable & Robust DDOS Attack Detection in IOT Using Neural Network	58-62
A pH metric investigation of chemical speciation of binary complexes of manganese(II) with L-glutamine and succinic acid in TBAB-water mixtures	63-68
Effect of Mooring on Inland Vessel in Port Region	69-71
>3.14 So incorrect value of π is not correct 3.14. Instead use perfect value of $\pi = 22/7$ and $r = 7/22$ as One UNIT of "r" Latest Math Correction value Math	72-73
Developing A Human-Centric Agricultural Model In The Iot Environment	74-76
Common Fixed Points of Using Variants of Compatible Mappings	77-80
