Contents :

Heat Transfer Analysis of TiO ₂ Nanofluid over Unsteady Stretching Surface	01-11
Effect of Storage on Quality Characteristics of Wheat Flour	12-33
Handling The Class Imbalance Problem From Different Datasets	34-40
Training teachers in History - Geography Pedagogy in the Mekong Delta	41-44
A Study on Capital Budgeting Towards Electrosteel Casting Limited in Srikalahasti	45-50
Modeling of Cr ³⁺ doped TiZnF ₃ Single Crystal	51-56
0 Dimensional Carbon-Based Nanomaterials for the Electrodes of Electrochemical Double Layer Capacitor: A Review	57-66
Hybrid Reinforced Polymer Composites from Water Hyacinth and Pineapple Leaves	67-75
Machine Learning Algorithms - A Systematic Review	76-82
Fatigue Performance of Calcium Carbide Residue Modified Asphalt Concrete Pavement in Extreme Moisture Condition	83-87
Fly Ash & Sugarcane Bagasse Bricks (Study for the Compressive Strength with Varying Material Composition & Water Absorption Test)	88-96
Fly Ash & Sugarcane Bagasse Bricks (Review on Bricks of Compressive Strength with Varying Material Composition Ratio & Water Absorption Test)	97-103
Development of Multigrain Cookies	104-131
Formulation of Topical gel from betel pepper	132-137
Design and Analysis of High Throughput and Energy Efficient FIR Filter using Retiming and Pipelining in Verilog Coding	138-145
