Contents :

Optimal Performance of Compressive Strength of Recycled Aggregate Concrete with Cement Content 350kg/m ³ 400kg/m ³ and 450kg/m ³	375-379
Friday Prayer Rotation System during Pandemic	380-388
Analysis of Physico-Chemical Parameters of Soil and Water In and Around Avaragolla Village, Davangere District	389-393
Business Intelligence Tools – Systematic Review	394-408
High Dimensional Data analysis base on Machine Learning methods	409-413
Differences and Similarities between Support Vector Regression (SVR) and Neural Network (NN)	414-419
Defect Inspection Of Casting Product Surface Using CNN	423-436
Fragment-based simulation study of interactions between sodium polyacrylate, styrene-butadiene latex and calcite surface	437-445
A Review Paper on Analysis of Fertilization by using Fertirobot	446-450
Speech , spatial and qualities of hearing in hearing aid users	451-457
A New Subclass of Classes of P-Valent Starlike and Convex Functions with Coefficient Bounds	458-463
Review on Multi Grain Dryer	464-469
Effect of Confining Pressure on the Stress Paths of Soils Using MIT and Cambridge Plots Methods	470-474
Comparative Study of Transmission Line Tower with Different Bracing Patterns Using Response Spectrum Method	475-482
