Volume : 10 ~ Issue : 3

p-ISSN : 2320-9356

Contents :

Role Of Computer Aided Drug Design In Drug Discovery & Development	01-05
IOT Based Smart Helmet for Construction Workers	06-10
Overview of Telemedicine Services for Orthopedic & Traumatology Cases during the Second Wave of Pandemic Covid-19 in Indonesia	11-16
Electrochemical Characterization of Cellulose Acetate Butyrate-PRMUTIT Composite Membrane in Aqueous UNI-UNI VALENT Electrolyte Solutions- A Review	17-20
Design of smart grid energy management system and comparative analysis between heuristic and optimum management method	21-27
Observance of Multiple Spring Constants in Rubber Bands following Hooke's Law	28-38
Robot for Serve Food and Medicines to Patients of Corona Virus in India	39-44
Design and Development of Smart Wheelchair	45-50
Numerical investigation on the flow around blunt bodies with different turbulence modeling	51-58
Room temperature strength, high temperature quasi-superplasticity, microstructural evolution and constitutive modeling in a superlight Mg-2.65Li-7.05Al-2.08Zn-0.15Y alloy	59-79
