

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 5 ~ Ser. 8

p-ISSN : 2320-9356

Contents :

Blockchain Based Cloud Smart Healthcare System with Dual Assses Control Framework	01-06
Segmentation and Classification of Alzheimer's Using RCNN	07-10
Need of Normalization Techniques in Defect Prediction	11-15
Association between the HCMs and major SEP events for Solar cycle 23 & Effect of Halo Coronal Mass Ejection on Cosmic Ray Intensity and Disturbance Storm-Time index	16-20
An Electronically Reconfigurable Microstrip Antenna with Switchable Slots for Polarization Diversity	21-26
Experimental Investigation of Waste Glass Powder as Partial Replacement of Cement In Concrete	27-31
Early Prediction and Classification of Diabetic Retinopathy Based On Physical Examination of Data	32-37
Information Communication Technology in Construction Management Using Primevera	38-47
Machining of stainless steels – a review	48-55
Ionic liquid mediated synthesis of 5-arylidine-2,4-thiazolidinediones and antibacterial evaluation	56-60
A Review On Evaluation Of Current Techniques Used In The Diagnosis Of Human Immunodeficiency Virus.(HIV)	61-65
Energy Monitoring and Conservation using Smart Plug	66-71
Temporal characterization of daily rainfall trends in Zambia from 1983 to 2019: A crop growing season perspective	72-81
