

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 6 ~ Ser. 6

p-ISSN : 2320-9356

Contents :

Analysis of Nodal Displacement due to wind effect in vertical irregular structures	447-453
Design of Solar Power Water Trash Collector	454-459
Experimental Investigation on Reuse of TYRE Waste Dust as Partial Replacement of Fine Aggregate in Concrete	460-472
Patrolling Robot Using Embedded C	473-478
Wear Performance of Al-B4C -TiC Hybrid Metal Matrix Composites	479-487
Assessment of Slope Stability of Glacial Rocks of Malana Valley Using ESRI ArcGIS & Geo-Studio	488-496
Smart Phone Based Student Information	497-504
Study on Geo Polymer Concrete	505-510
Development of Leave Management Information System	511-516
A Study on the Effectiveness of Branding Customer Purchase Decision	517-520
Maternity Clinic Information System with SMS Support: A Repository System	521-525
Assessment of Farming Soil Quality from Some Villages of Chandrapur District (MS), India	526-528
Identification and Control of Heavy Metals in Sea Food Material Using an IoT	529-533
Green Synthesis and Characterization of Cobalt Nanoparticles from Pisonia Alba Leaf	534-540
Attitude towards E-learning among College Students	541-544
