

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 6 ~ Ser. 8

p-ISSN : 2320-9356

Contents :

Computer Vision Approach for Movie Recommendation System	644-652
An Innovative Wearable Device for Women Safety Using IBEACON Technology with BLE	653-657
Xingó Hydroelectric Power Plant: Social participation in public hearings in Brazil	658-671
Enhanced Message Filtering Classification to Filter Profanity Words from Online Social Networks	672-677
Advanced Secure Authentication Schema to Enable Auditable Data Sharing in Cloud	678-683
Content based Hash Indexing Approach to Handle Data Deduplication over Cloud Data	684-690
Advanced Latency based Opportunistic Protocol to Handle Data Communication in WSNs	691-697
Advanced CNN Approach to Predict Water Body Segmentation over Satellite Images	698-704
Classifying and Blacklisting Phishing Webpage Using NCD and Image Hotspot Security	705-714
Online Child Foundation Helping System	715-717
Innovative Construction of Combined Ground and Elevated Level Service Reservoir in Monolithic Structure	718-730
Modeling of Development of IOT Based Smart Metering Infrastructure of E-Vehicle Charging Station	731-735
Noise Removal from MRI Brain Image Using Median- Filtering Techniques	736-743
