Contents :

Experimental Study on Mechanical Properties of Silica Gel Incorporated Concrete	01-06
Optimization of uses, Production and Overall cost of a plant through Dynamic Prescriptive maintenance	07-12
Travel Managerial for Trivial Situation Motor Vehicle use Decision Facts	13-15
A Review Paper on Text steganography	16-18
Review on Use of Sea Sand and Bamboo As Building Materials	19-22
Chemical and Mechanical Properties of Aluminium and Palm Seed Shell Metal Matrix Composite Using Compaction Technique	23-31
Development and Characterization of Solid Dispersions for BCS-II Drug Using Cyclodextrins	32-37
Real Time Driver Safety Monitoring and Alerting System	38-42
3D Printing In Aerospace and Its Long-Term Imperishable	43-45
Increases in transparency and minimization of malpractice in ration card management system using E-Ration Card with RFID	46-51
Hawk-Eye smart CCTV surveillance System	52-56
Characteristics of Victimization in Ahmednagar City in India	57-60
Efficient Classification and Detection of Lung Nodules Using Deep Learning	61-67
Thiozole based receptor for the detection of toxic cyanide ion with turn on Fluorescence	68-71
