

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 7 ~ Ser. 9

p-ISSN : 2320-9356

Contents :

Resilient Symmetrical 8T SRAM cell for Leakage Power Attack using 90nm CMOS Technology	798-804
Formulaic teaching design of pricing interest rate swaps	805-807
Road Accident Prediction using Machine Learning Techniques	808-815
Modelling of Wide range output DC-DC converter for EV Charging	816-828
Infant Cry Analysis: A Comparative Study between Low Birth Weight Infants and Normal Infants	829-832
Experimental program on hardened properties of geo polymer concrete by using red soil	833-838
Removal of Iron using Modified Low Cost Adsorbents	839-847
Experimental program on hardened properties of geo polymer concrete by using red soil	848-853
Role of E-Commerce in reducing Operational Cost	854-858
Studies on major Solar proton Events and Coronal Mass Ejection during 2000 to 2005	859-867
The Design of Collecting Shuttlecocks Robot Based on Object Detection	868-875
Theoretical Investigation of Zero Field Splitting Parameters of Mn ²⁺ doped YAP Crystal at Orthorhombic Symmetry Site	876-881
Malaria Detection from Blood Cell Images using Convolutional Neural Network Model	882-888
Comparative study of environmental social consciousness between high secondary level students	889-895
Evaluation of Clay Deposits in Lafia, Awe & Keana Local Government Areas of Nasarawa State North Central Nigeria For Suitability as Electrical Porcelain Insulators for High Voltage Applications	896-900
