ABOUT:

I am a btech biotechnology student of PSG College of Technology, coimbatore.

OBJECTIVE OF PROJECT

I have created my own website to access the entire codons and genome of human.

HUMAN GENOME PROJECT:

The Human Genome Project was the international research effort to determine the DNA sequence of the entire human genome. Human Genome Project Results. In 2003, an accurate and complete human genome sequence was finished two years ahead of schedule.

It optimised the complete data of genome.

I have created my own website regarding human genome project

It has the codons and base pairs of 24 chromosomes.
