Contents :

Water Pollution and treatment-A Review	01-04
The Study on Child Abuse in India	05-14
Performance Evaluation of Concrete By Partial Replacement of Fine Aggregates With Iron ore Tailings And Areca Fibers	15-19
Using ETAB, Analysis and design a residential building	20-24
An investigational study on "Litracon"	25-28
The Importance of Business Communication to the Students of Humanities and Science in Arts and Science Colleges – A Study	29-31
The Relevance of Language Learning To Improve Communicative English in Arts and Science Colleges – A Study	32-34
Efforts of Fintech Institutions in the development of Financial Inclusion in Indian Financial Market	35-37
Effect of Earthquake Resistant System on Vertically Geometric Irregular RC Tall Building	38-46
Judicial Review	47-51
Analysis of Building in Hilly Areas under the Earthquake Excitation and Wind Load	52-58
Design and Analysis of a Set of Press Tools for Cable Bracket	59-70
Res Ne Xt Model for Ear Recognition and Classification Based on Deep Learning	71-78
Optimization and Prediction of Melting Temperature of Mild Steel Weldment, Using Genetic Algorithm	79-84
Combined Perturb and Observe and Artificial Neural Network Approach for Maximum Power Point Tracking in Photovoltaic system under uniformly shaded conditions	85-92
