

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 8 ~ Ser. 4

p-ISSN : 2320-9356

Contents :

Effect of Waterfall Height to the Efficiency of Hydrant Pump	320-324
A Novel Route Adjustment Scheme For WSN Using Dynamic Virtual Grid Method	325-329
Development of Defect Management In Construction Using Bim Technology	330-336
The Effect of Admixtures on Concrete Properties	337-343
Experimental Investigation On The Properties Of Cement Concrete Partially Replaced By Phosphogypsum And Carbon Fiber	344-349
Biostatistics has made major contributions to our understanding of countless public health issues, such as AIDS, Cancer and Chronic diseases	350-354
Effect of diaphragm discontinuity of RC structure with different percentage of Diaphragm Discontinuities	355-362
Efficiency of Neem Leaf Powder and Banana Pith Powder as a Natural Coagulant	363-369
Creatine - A Wonder Molecule: A Comparison Study to Identify the Best in Vitro Capacitating Agents for Sperms	370-384
Soft computing and application	385-386
PROJECT: BIOCODE	387-388
MONKEYPOX (MPX)	389-396
Evaluation and Analysis of Stabilization of Clayey Soil with Some Additives	397-402
Assessment of Environmental Benefits of Urban Parks: A Case Study from Nazilli, Turkey	403-408
Detection of Rolling Bearing Damage Based on Anomaly Error Reconstruction of Vibration Sample	409-414
Secure Outsourcing with Efficient Revocation in Cloud Computing	415-420
A Review Paper On Analysis Of Water Tank By Using Staddpro	421-423
Photo degradation of Olive Mill Wastewaters Using Graphene-Tio2 and Recovery of Graphene-Tio2	424-432
Design of automatic handrail sterilizer under epidemic prevention and control	433-436
Adaptive Control of Robotic Manipulators with Uncertain Load Using General Regression Neural Network	437-444
