

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 10 ~ Issue : 8 ~ Ser. 5

p-ISSN : 2320-9356

## Contents :

Microbial Biosurfactant: An intermediate with enhanced degradative potential	445-453
A Unified Approach for Reliability Evaluation of Probabilistic Flow Networks in Terms of Minimal Cutsets	454-459
Study on the condition of High-Level Causeway at Naved-Darapur Road, Amaravti District	460-467
Zero Field Splitting Parameters of Fe <sup>3+</sup> doped Cs <sub>2</sub> NaAl <sub>3</sub> F <sub>12</sub> Single Crystal.	468-473
An advance subclass of Analytic Functions having a unique coefficient inequality	474-476
An Empirical Study on Consumers' Attitude Towards Organic Food Products with Special Reference to Chennai City	477-480
Efficient Traceable Authorization Search System for Secure cloud Storage	481-485
Screening Of Prominent Rice Varieties of North India For Making Quality Wine	486-490
Determining thenon-rigid respiratory motion of coronary Magnetic Resonance Images utilizing 3-dimensional RESP-NET	491-496
Cascaded Segmentation and Classification System for Computer-Aided Recognition of Cell Quantification	497-504
Simulation Study on the Deposition Characteristics of Particles on the Surface of Solar Photovoltaic Panel at Different Wind Speeds	505-511
A Research on Surface Crack Identification and Location of Selective Laser Melting Specimen	512-518
Trace Level Determination of 1-Chlorobutane in Candesartan Cilexetil Drug Substance	519-525
Efficient Note Taking App Using Web API and JWT Token	532-536
Changes in Protein Content in Different Body Parts of Lamellidens Marginalis When Exposed To Heavy Metals	537-541
Glycogen levels in fresh water bivalves (Lamellidens corrianus and Indonaea caerulus) due to influence of heavy metals	542-547
