Contents :

Effect on Stability and Swell Characteristics of Asphalt Concrete Mixtures Blended With Egg Shell Ash	465-471
Spectroscopic and Electronic properties of PYP609 liquid crystal molecule: A DFT study	472-476
Leachate treatment using up flow reactors with low cost waste adsorbent materials	477-482
Investigations on the Effect of Silica Nanoparticles on Polyamide Coated PVDF Hollow Fiber Membranes	483-492
Detection of Heart Failure and Arrhythmia Using Stacked Auto Encoded	493-496
Effect of Special Shaped Column Cross Section with Bracing on Response Modification Factor of Reinforced Concrete Building	497-499
Estimation of pesticide residues in water samples by employing voltammetry	500-501
Development and Standardisation of Edible Bowls by Utilization of Citrus Peel and Pulp	502-504
A Study on Domestic Violence Against Women In India	505-524
Spectroscopic analysis of 2, 5-Disubstituted Pyridine Derivatives: Part I	525-529
Design, Analysis and Fabrication of Pulse Jet Engine	530-534
A Study on Customer Satsifaction Towards Bsnl, Tirupati	535-538
Soft Target Vehicles for active evaluation of ADAS Testing	539-546
Numerical Simulation of Low Temperature on Performance of Pneumatic Piston Motor	547-551
A Study on Cash Flow Analysis in Vital Pvt Ltd, Tada	552-556
