

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 10

p-ISSN : 2320-9356

Contents :

Promoting Employee Engagement in Work in Business Enterprises	01-12
Comparative analysis of computational based motif refinement methods	13-16
Digital Readiness as an antecedent to digital transformation journey in organizations	17-21
Analysis of Drivers of Solid Waste Minimization at Source in Dar es Salaam City, Tanzania	22-52
Microwave-assisted synthesis of Bis-histidinato nickel (II) complex and its luminescence properties	53-60
Artificially Intelligent Virtual Assistant Chatbot	61-66
Studies on the formulation and evaluation of the Aceclone Matrix Drug Delivery System using Natural Gum from the Satpuda Region	67-77
Use of Artificial Intelligence in achieving environmental sustainability	78-88
Crop Exhortation Using Machine Learning Approach	89-98
Presence of Coulomb Diffraction Interference in $9\text{Be}(11\text{Be}, 10\text{Be})\text{X}$ Reaction	99-102
Extraction and Analysis of Caffeine from Various Sources: A Review	103-108
Median Graphs-A Survey	109-113
Durability Properties of Concrete Developed Using Quarry Dust	114-122
Effect of Inert Gas Treatment on the Quality of Biocharcoal Briquettes	123-126
Neurointegral Methodology Based Adapted Neurosciences In Mental - Well Being: Case Study - 1	127-142
