

Contents :

The Application of Reverse Logistics For Waste Management in Construction Projects	01-09
Research on the properties and influencing factors of high-efficiency joining materials based on orthogonal tests	10-15
Competency of Office Administration Graduating Students in a State University	16-28
Risk Assessment of Supervision Consultants for Multi Storey Construction Projects in Palu City	29-39
Analysis of factor Affecting the Implementation of Construction Occupational Safety and Health in Multi Story Building in Palu City	40-50
Impact of Percentage Composition on Viscometric Parameters of Substituted Thiocarbamido-Naphthol at 303 K Temperature	51-53
Situational Awareness during Natural Disaster using Data Visualization	54-58
Transforming Subjective Quality Definition into Objective Quality Definition	59-65
An Analysis on Noise Reduction for Sputum Smear Microscopy Images	66-72
Computer Literacy among Secondary School Teachers: Basis for Development Intervention	73-79
Slope Stability Analysis Using the Probability of Failure Approach at PT. Kencana Bumi Mineral Nickle Mine in Morowali Regency Central Sulawesi Province	80-89
Assessment of Under-graduate Teachers' Knowledge about Different Aspects of Information & Communication Technology Tools & Devices in Patna Town	90-94
US-Based Brand Guidelines For Launching On Amazon UK	95-102
Schiff Base Liquid Crystals and Ester Mesogens: Synthesis, Characterization and Phase Behavior	103-110
Synthesis, Characterization and Evaluation of their Antimicrobial Activity of Substituted 3-(4-((1-Phenyl-1H1, 2,3-Triazol-4-yl) Methoxy) Phenyl) Propanenitrile	111-117
