

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 06 ~ Ser. 5

p-ISSN : 2320-9356

Contents :

Aerodynamic optimization of building shapes by using ETABS	404-415
Design And Analysis Of Helical Spring In Two-Wheeler Suspension System	416-438
Understanding The Performance And A Comparative Study, Analysis, And Design Of A High Rise G+15 Commercial RCC Building Subjected To Wind And Seismic Loads	439-448
Economic Dimension of Women Empowerment and Gender Equality with Synergistic Effect	449-456
Accurate Identification of Medicinal Plants for Better Environment	457-462
Rolling Barriers System for Reduction of Road Accidents on Horizontal Curves	463-468
Effect of Quickbooks Systems on financial Performance Among The Small And Medium Enterprises In Bungoma County, Kenya	467-482
Performance Analysis of EV Charging Station Using Solar System with Dc Grid	483-491
The Strategies to Enhance the Efficiency of Parallel Inverters at Light Loads	492-498
Durability of Concrete by Partial Replacement of Coarse Aggregate with Recycled Plastic Granules	499-506
Cereal Production Analysis Using ML	507-512
Crude Palm Oil (CPO) Quality Control Using Statistical Quality Control (SQC) and Failure Mode Effect Analysis (FMEA) Methods at PT. XYZ	513-521
Recent Changes to Farming Supply Chains	522-525
Performance of Computerised Single Cylinder Diesel Engine with Blends of Bio Diesel	526-535
Analysis of Roof Waterproofing Technology in University Building Construction	536-539
