Contents :

Experimental Investigation on Concrete by Partial Replacement of Fine Aggregate with Ceramic Powder	01-08
Online Reservation Management System	09-15
Monitoring the Discharge Voltage of Li-Ion Batteries in the UAV Component Through the Thingspeak IoT Cloud Platform Using LoRa	16-19
Molecular Spectroscopy of 4-n-octyl, 4 cyanobiphenyl (8CB) and 4 -octyloxy-4-cyanobiphenyl (8OCB) liquid crystal molecules: A DFT Study	20-22
Pragmatic Skills in Tamil Speaking Children with Intellectual Disability	23-27
Geostatistical Sampling Methods and the Construction of Semivariograms and the Kriging Process	28-31
Investigation and Optimization of TIG Welding Parameters Using Taguchi and Annova	32-36
Early Detection of Depression by Tweet Analysis	37-44
Performance of RCC Structure with Viscous Damper	45-55
Synthesis and Characterization of Liquid Crystalline Property of a New Thermotropic Liquid Crystalline Molecules with Terminal End Group and DSC Study	56-63
Teachers' attitude towards online portfolio as a tool for professional development in the Hohoe municipality, Ghana	64-69
Influence of infinitesimal shear on invariants and the stress tensor components of a cylindrical tube: Application to three models	70-78
Effect of Static Load on Work Barge Deck Structure	79-91
Design and Analysis of Foot Over Bridge Using Plated Fabricated Steel Member	92-97
Exploring 'Machine – Learning' Techniques for Smart Drainage System	98-103
