

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 07 ~ Ser. 2

p-ISSN : 2320-9356

Contents :

Study on Wind Analysis of Multi-Storied Building with Different Shapes and Different Terrain Category	104-107
An Augmented Reality Application in Education – Learn Smart	108-113
Formation of biofilm on carriers in batch reactors as a method for reducing start-up time of UASB reactors	114-119
Wastewater Management for Small Village by MBR Method	120-126
Application of Single Use Plastic for Concrete Making	127-132
Fly Ash Residue Revolution: Environmental Evolution of Leaching Trash Elements	133-135
Stability Analysis of Gravity Dam Structures in India: Calculation Methods and Procedures	136-140
A Two Dimensional Matrix Barcode Based Ambulance Allocation System	141-143
Cyber Security-Ransomware	144-149
Facial Expression Recognition	150-159
Status of domestic solid wastes management in Tu Son city, Bac Ninh province, Vietnam	160-163
Web-Based Online Platform for Research Study	164-169
In-Vessel Melt Retention with External Cooling For Vver1000	170-180
Study of Interlocking Inter-Module Connection for Modular Steel Buildings	181-187
Email Spam Detection Using Hybridization of SVM and Random Forest	188-193
