

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 11 ~ Issue : 07 ~ Ser. 4

p-ISSN : 2320-9356

Contents :

Medha Suktam: A theory-probability of evolving human consciousness	296-297
Pharmaceutical Industry Wastewater Treatment Using Electro-Coagulation Method	298-317
Space vector Pulse width modulation of Five phase supply for Three Level inverter with sample reference phase voltage	318-324
Awareness of Speech and Hearing Disorders Among MBBS Students in Bihar	325-331
Study of the Implantable Patch Antenna Performance in Medical Application	332-335
Exploring IoT-Based Health Monitoring Environments for Enhanced E-Health	336-343
Experimental Study on Sugarcane Bagasse Ash and Lime as Partial Replacement of Cement in Concrete	344-352
Experimental Investigation of Partial Replacement of Cement with Wood Waste Ash and Steel Fibre in the Concrete	353-359
An Expository Inquiry into Spectral Handoff Mechanisms for the Cognitive Radio Network	360-363
Development of Kevlar Composites for Ballistic Application	364-372
Nurses' role in caring for children who are victims of domestic violence	373-379
Durability Properties of High Performance Fabric Fiber Reinforced Concrete with ALCCOFINE	380-386
Palm Print Recognition Using PCA and its Modern Variants	387-392
Current status and solutions for household solid wastes management in Tu Son city, Bac Ninh province, Vietnam	393-398
Progressive Collapse Analysis of Circular and Elliptical Structures	393-406
Effect of W Rib Absorber Plate on Thermal Performance Solar Air Heater	407-412
Plant Disease Management in Agricultural Ecosystems	413-418
Spectroscopic and electro-optical properties of 4-(5-Pentylpyrimidin-2-yl) benzonitrile molecule: A DFT study	419-421
