Contents :

Assessing and Ranking Health, Safety and Environmental Risks through Analytical Network Process (ANP) Method in Cement Plant	01-04
Impact of Voltage Fluctuation and Power Quality on the Performance of Cold Chain Equipment used in Immunization Supply Chain	05-10
Quantum Geometric Entanglement: A Unified Model for Emergence of Spacetime in Quantum Gravity	11-16
Research on the Teaching Mode of "BOPPPS+PAD Class" Based on "Three Micro Integration" under the Internet Background	17-23
Global Reactivity Descriptors, Optimized Parameters and Hydration Free Energy of Sodium and Potassium Salt of Amino Acids	24-29
Enhancing Electrical Safety Protocols in Workshop Environments	30-33
Enhancing Practical Learning in the Electrical Workshop: Innovative Teaching Methods for Effective and Safe Hands-On Education	34-37
Design and Development of An Inventory Management Mobile Application	38-47
Evaluation of Aquifer Protective Capacity in parts of Oru LGA Imo State, South-eastern Nigeria Using Resistivity Data	48-53
Selecting a milling approach based on the toolpath strategy in pocket milling	54-57
Comparative Study On The Adsorption Of Chromium Cr(VI) From Wastewater By Using Different Adsorbents	60-68
Formulation and Evaluation of Immediate Release Tablet of Lercanidipine HCL	69-72
Android-Based Online Public Access Catalog (OPAC)	73-80
Application Of Make A Match And Scramble Learning Models Scramble Learning Model With Probing Prompting Technique To Increase Students' Achievement Motivation To Learn Physics	84-103
