

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 01 ~ Ser. 2

p-ISSN : 2320-9356

Contents :

Cyber Attack Detection for Self-Driving Vehicles Using ML Algorithms	140-149
Enhancing Productivity in Small Scale Manufacturing Industry through Work Study Approach- A Case Study	150-157
Sustainable Design Strategies for Malaysia Mangrove Ecotourism	158-171
Rehabilitation devices for the treatment of motor disability: a necessity in Mexico	172-175
A review of microbial research on disinfection of ultraviolet cabins under the background of the new crown epidemic	176-181
Experimental study on indoor pollutant PM2.5 concentration in public buildings	182-186
Factors Affecting the Career Choice of Office Administration Students in a State Higher Educational Institution	187-194
Streamlining Sales Processes through Pega Sales Automation	195-205
Study on the Synthesis, Characterization and Antimicrobial Activities of 5-Substituted Hydantoins	206-210
Experimental study on the effect of quicklime on the strength characteristics of composite cured river bottom muds	211-217
Design and Analysis of MLI for Grid Integration of PPCS with Power Quality Enhancement using Different MPPT Techniques	218-229
A review of methods for calculating radiant air conditioning cooling load	230-236
Satisfaction and Utilization of the Physical Facilities in a State University	237-251
Revisiting Design Patterns Tailored for Distributed Systems in a Containerized Environment	252-255
Application of Intelligent Technology in Automotive Perception Systems	256-262
