

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 01 ~ Ser. 3

p-ISSN : 2320-9356

## Contents :

Analysis and Research on Vertical Deformation of Super High-rise Construction of Ningbo Bank of China Tower	263-267
Analysis of Segregation Between the Purchasing Sector and Administrative Department: Impacts and Strategies	268-272
Monkeypox Skin Lesion Detection with Deep Learning Models and Development of Its Mobile Application	273-285
Exploring finite mixtures of t-distribution to model the white noise in AR(p) process	286-293
Chemical monitoring of soil as a basis in technology production of Primalba and Willamette raspberry varieties	294-300
Functional and Structural Evaluation of a Link Road subjected to frequent deteriorations	301-316
Warehouse Design for Maximum Capacity Usage	317-323
Evaluation of Agronomic Characters of Some Local Bali Corn Accessions	324-330
Design and Implementation of EDNA-based Time Series Caching Framework	331-338
Mechanistic Empirical Modelling and Design of Geosynthetic Reinforced Flexible Pavement	339-350
The Impact of Light Shelves to The Daylight Illuminance for Office Building in Malaysia	351-357
Geology & Economic Potential of Migmatites Around Zumbul And Environs, DASS LGA Of Bauchi Sheet 149 SW North East Nigeria	358-370
Negotiation And Supply Planning in Civil Construction	371-375
An assessment of the nutritional quality of high school students in Istanbul Province using the Healthy Eating Index methodology	376-384
Evaluation of Dietary Habits, Diet Quality and Obesity Status of Primary School Students and Their Mothers	385-393
Adapting Training Strategies for a Remote or Hybrid Workforce: Challenges and Solutions	394-398
