

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 10

p-ISSN : 2320-9356

Contents :

Predicting Psychological Disorder in Parents of Children With Nephrotic Syndrome: A Comparative Study Of Six (6) Machine Learning Classifiers	01-08
A Framework of Ubiquitous Bidirectional Translation for Language Learners	09-18
A review of Network Traffic Prediction using Deep Learning Models	19-33
Obstacle-Free Path Planning for Autonomous Drones Using Floyd's Algorithm	34-40
Refractive Index Determination of Groundnut Oil from Paratwada Village of Amravati District (M.S.), India at Various Temperatures	41-43
The role of bronsted acid sites in cleavage of 1-Octadecene compounds(long carbon chain) Being a compound with short carbon chain bonds	44-50
Assessment of Road Transport Infrastructure on Residents' Wellbeing in Abeokuta Ogun State	51-60
Development of a Fuzzy Logic model for Online Shopping Support	61-65
Smart irrigation system using Arduino to identify temperature, humidity, pressure, moisture, light intensity, and air quality	66-74
Design and production of a derrick crane for materials handling	75-86
Analysis of Determining Factors for the Success of the Design and Construction Project of Luwuk – Toili Ring Road in Banggai Regency, Indonesia	87-95
The Role of Strategic Leadership In Strengthening Public Private Partnerships For Sustainable Economic Development In Rwanda	96-109
Optimization of Anti-Surge Adaptive Control System for Centrifugal Compressors in Gas Facilities Using Fuzzy-PID Based Techniques	110-118
Application of Dynamic Programming in Capacity Allocation	119-127
Prompting CHATGPT to Estimate the Emotions	128-133
