Contents :

Dynamic Response Studies of Machine Tools Foundation: Critical Analytic Models Versus ANN	01-17
Attribute and Inter-Attribute domain constraints in fuzzy object oriented database based on hedge algebra	18-24
Stock Flash: Real-time Stock Information with an Extension	25-30
Research on vertical crusher equipment for coal mining and processing	31-36
Investigating Two-dimensional (2-D) Coordinate Calibration for Object Measurement in Robotic Arms	37-42
Heat Transfer and Thin Film Flow Analysis of EG-ZnO Nanofluids with Different Shape Factors over an Unsteady Radially Stretching Sheet	43-50
xxx	51-56
Comprehensive analysis of a combined Rankine and organic cycle for waste heat recovery: a strategy to maximize thermal efficiency	57-73
A Study on Robotic Process Automation	74-80
Design and Development of An Online Auction System	81-92
The importance of nurses in assisting pregnant women admitted to primary care	93-96
