Contents :

Design and Implementation of a Rechargeable Active/Passive RFID Tag System with Integrated Software Interface for Construction Site Equipment Tracking	01-09
Review on Recent Advances on Synthesis, Properties and Application of Graphene and Graphene Oxide	10-18
Determining Areas Burned in Forest Fires from Satellite Images: 2019 August Gallipoli Forest Fire (Çanakkale / Turkey)	19-24
The Model of Service Quality Influence on the Existence of Ride-Hailing Service Operations Using the Structural Equation Modeling (SEM) Method	25-34
Integrating Machine Learning and Deep Learning Techniques for Sleep Apnea Detection Using Single-Lead ECG	35-42
Mesomorphism dependence on molecular flexibility Involving Lateral -OCH ₃ Group and Vinyl Carboxylate Central Linkage	43-52
The Effect of Public Minibus Service Quality on User Satisfaction of Public Minibus Using SEM (Structural Equation Modeling) Method	53-62
Detection of DDoS Attacks Using XG Boost Based Feature Selection and Deep Learning	63-79
Automated Detection of Fraudulent Reviews Using AI	80-83
Analysis and Evaluation of Youth Robotic Science and Technology Innovation Competition	84-91
The Performance Evaluation of the Irrigation System in the Sausu Irrigation Area Parigi Moutong Regency	92-101
The Role of Artificial Intelligence in Traffic Management and Data Utilization in the Connected Environment	103-104
A Note on Pell's Equation	105-109
Numerical modeling of oil gas adsorption on activated carbon	110-118
Based LR Kernel Prior Model for Unsupervised Blind Super Resolution	119-123
