

Contents :

Examination of a Cement Plant's Use of A Kalina Cycle For Waste Heat Recovery	221-229
Research on flexural performance of composite steel truss without upper chord	230-246
On-off-on Fluorescence Sensor for Detecting Cr6+ and Ascorbic Acid Using Carbon Dots from Distiller's Grains	247-256
Nursing performance after brain deaths diagnosis – systematic literature review	257-262
Analysis of Rack Dryer Performance with Varying Inlet Air Temperature	263-266
Japanese Human Resource Training Policy Through The Education Reform From 1945 To 1952	267-272
Head-Discharge Equation for Dam Breach: Three Dimensional Numerical Study on 1:1 Scale	273-281
Research on optimization of airflow organization in badminton hall based on CFD simulation	282-292
Research on resource utilisation of crop residues in China: a review	293-299
Arduino Based CNC Pen Plotter	300-308
An Investigation Of The Nutritional Knowledge Levels Of Individuals Who Regularly Use Fitness Centers	309-318
Drying Kinetics of Smoked Catfish Using an Improved Smoking Kiln	319-328
Mathematical Modelling and Optimization of Chitosan Based Polymer Film Quality Parameters	329-343
