

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 04

p-ISSN : 2320-9356

Contents :

Expression of Green Fluorescent Protein in Competent Escherichia Coli	01-08
Balancing Creativity and Compliance in Data Engineering Solutions	09-15
Overview of Prestressed Concrete Construction Technology	16-19
Study on Adsorption and Recovery of Phosphate in Aqueous Solution by MgO Loaded Activated Carbon	20-24
Porosity variation and diagenetic evolution of Tipam Sandstone Formation of Geleki Oilfield of Upper Assam Basin	25-40
Artificial Intelligence Empowers Higher Education	41-49
Dynamic Pedagogical Equation Theory: Theoretical Perspectives on Mathematics Curriculum	50-61
Image Caption Generator	62-67
Influence of Age and Body Mass Index (BMI) On Blood Pressure using Multiple Regression Approach	68-75
A review paper on Intelligent control systems to improve the speed of the robotic arm for picking fruit	76-199
Morphometric Analysis of Watershed in Unchehra Area Satna District of Madhya Pradesh using Remote Sensing and GIS Techniques	120-129
Concrete crack image detection based on optimized lightweight convolutional neural network MobileNetV2	130-138
Comparative study on bearing capacity of RC slabs with opening before and after casting	139-152
Design of peanut shelling and compressing integrated machine	153-155
Prediction of Compressive Strength of Ultra-high Performance Concrete Based on Machine Learning	156-162
