

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 04 ~ Ser. 3

p-ISSN : 2320-9356

## Contents :

The Role of Human-in-the-Loop in AI Driven Clinical Trials	293-299
Survey of 3D Segmentation Research Based on Deep Learning	300-310
Application of energy saving technology in HVAC	311-316
Food Share: A Collaborative Platform for Food Donation and Distribution	317-326
An Integrated Short Answer Grading Systems	327-331
Use of demolition brick and masonry wall to improve the CBR of Black Cotton Soil	332-339
Modification of Zeolite Catalyst with Sio <sub>2</sub> from Fly Ash for Palm Oil Hydrocracking Process	340-346
Developing Resilient AI Systems against Adversarial Attacks in Cloud Services	347-353
Strengthening of Reinforced Concrete Slabs Subjected to Flexural Stresses Using External Layers to Act as Sandwich Slabs	354-366
Analyzing Sustainable Development: A Comparative Study of Green Building Standards	367-371
Assessing & Evaluating Indoor Environment Quality Of A 3 Star Bee Rated Office Building: A Case Of Lucknow	372-382
Assessment Of Obstacles To Girls' Success In Technical Sectors In The Republic Of Guinea	383-386
Study of Efficacy and Utility of Homoeopathic Medicines in Management of Lichen Planus	387-388
Limited Reporting in IBM Sterling Integrator Leading to Lack of File Transfer Notification Systems	389-394
Early Stage Detection of Bacterial Blight Disease on Pomegranate Leaves and Fruits Using AI	395-401
Energy Efficient Office Buildings in Composite Climate	402-426
Study of the effect of cementitious materials on 3D printed mortars	427-430
Microalgae-based low-carbon heavy metals removal from wastewater and biomass utilization	431-437
