Contents :

Enhancing Human Activity Recognition Through A Fusion Of Hybrid Features And Transformer Models	135-143
The Future Of Wireless Networks: 5g, Wi-Fi 6 And Beyond	144-146
Examining Specific Outsourcing Strategies currently employed in the Maintenance Management of Tertiary Institution Buildings in Anambra State	147-152
Examining the impact of performance management strategies on the success of outsourcing maintenance management projects	153-159
Recycle of Post Consumer Plastic Waste Into Tiles	160-162
Bullshield – Application Against Cyberbullying	163-172
Research of Autonomous Navigation for Mobile Robots Using Karto SLAM Algorithm Under ROS	173-179
Effectiveness of Using WhatsApp Application in EFL Classes at University level	180-189
Assessment of Radiological Risk in Oil Producing Communities in Bayelsa West Senatorial District, Bayelsa State, Nigeria	190-202
Analyze the amplitude of the ultrasonic transducer using the finite element method	203-207
Crude Oil Inventory Control with Min-Max Method in PT ABCD	208-220
Design and manufacture portable flatness measuring device	221-225
Development And Evaluation Of A Low-Cost Rice Milling Machine	226-234
Joule Effect of Heat Transfer of Power-Law Fluid Along the Cylinder	235-241
A Study on Hybrid Low Salinity Water Surfactant Flooding in a Part of Oilfields of Upper Assam Basin	242-249
A Review of research on self-centering steel structures seismic systems	250-257
