

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 12 ~ Issue : 06

p-ISSN : 2320-9356

## Contents :

Influence of Shape of nanoparticle on flow and heat transfer of nanofluid in the presence of joule heating along a stretching surface	01-15
Enhancing Teaching of Robotics through Computational Modelling	16-20
An Inflated Probability Model for the Out-Migration: A case study in Karnataka	21-25
Python Programming Design in BOPPPS Teaching Mode and Classroom Participatory Learning Design	26-30
e-Commerce and the Role of Modern Cloud SaaS Databases	31-37
A review of truck seat suspension system	38-42
Qualitative Analysis of Ground Water Quality through Index Method Using Spatial Distribution Technique at Dr. B. R. Ambedkar Konaseema District	43-50
A Review Paper on Partial Replacement of Cement by Fly Ash in High-Strength Concrete	51-58
Study on Engineering Properties of Expansive Soil with Pond Ash and Coir Fibre	59-69
Potential of Mango ( <i>Mangifera Sp.</i> ) As A Rootstock Based on The Characteristic of The Pelok and Seeds	70-77
An Evaluation Computing on Automobile Transaction Process by FAHP with CMMI3: A Case Study of the H Company	78-95
A Study on Classifying Business Innovation in Construction Firms	96-103
Harmonic Mitigation in Three Phase Cascaded Multilevel Inverter with DC Sources Using GA And DE Algorithm	104-110
Assessing needs of the women aged 55 to 65 years living in the rural communities of (Sindh) Pakistan	114-119
