

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 10 ~ Ser. 2

p-ISSN : 2320-9356

Contents :

A Case Study on the Behavioral Intention of Intelligent Driving Assistance Systems	87-95
The life history and social organization of spider <i>Stegodyphus sarasinorum</i>	96-98
The Effect of Ground Water Level on the Stability of Retaining Walls and Land Movement on the LampaTimbong Road Section, Banggai District, Banggai Laut Regency	99-110
A Comprehensive Framework for Geomechanical Characterization in Optimizing Hydraulic Fracturing of Low-Permeability Reservoirs	111-119
Smart Educational Environment Monitoring and Real Time Analytics Solution	120-124
Smart Serve-Real-Time Monitoring for an Intelligent Dining Platform	125-129
Waste-to-Energy Conversion Pathways: Integrating Chemical Recycling with Renewable Energy Systems	130-141
Features of Sangam Literature	142-145
Analysis on Frequency Conversion Energy Saving of Fan Water Coordinated Control in Metro Station Environmental Control Systems	146-150
Digital Sovereignty as National Security: Why Countries Must Build Indigenous AI and Data Infrastructure in an Era of Technological Weaponization	151-158
Design and Implementation of an Eye Massager Simulating Finger Massage	159-166
Measurement of Development Level and Study on Influencing Factors of Hangzhou's Cross-border Ecommerce	168-172
