

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 11

p-ISSN : 2320-9356

Contents :

Spectrogram-Based Robust Replay Attack Detection Using CNN with Data Augmentation Strategies	01-08
Combined effect of quantum pressure and rotation on stability of stratified viscoelastic Rivlin Ericksen fluid saturating a porous medium	09-14
Analysis of Multi-Storey Building with Cross Laminated Timber Panel	15-23
Systematic Review of Voice and Speech Outcomes Following Non- Surgical Cancer Treatments	24-27
Study of phytoplankton communities in warm-water fish farming ponds in Mazandaran province and identification of dominant microalgae	28-35
Structural Design of Mushroom Picking Robot	36-39
Design of Multifunctional Yoga Massage Board	40-43
Senior Project Advisor Meeting Record and Management System	44-50
Automated AI Image Detection	51-54
On A Method for Calculating Forced Bending Vibrations of Beams	55-60
Money Management Application	61-72
Databases for Intelligent Systems: A Review of Relational, NoSQL, Vector, and Blockchain Datastores for Scalable AI Applications	73-98
Phantom Grid: AI-Powered Predictive Maintenance for Smart Grid Digital Twins	99-105
Ground Improvement by Using Stone Column. (Case Study)	106-112
Long-Term Land-Use Transitions and Soil Erosion Response in a Tropical Semi-Arid Catchment: Insights from RUSLE-GIS Modelling	113-123
