

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 12

p-ISSN : 2320-9356

Contents :

Developing A Distributed Shared-Key Cryptosystem Architecture for Decentralized Blockchain Transaction Security	01-09
Design and research of multi-functional intelligent wheelchairs for the elderly with disabilities	10-15
The Effects of High-Carbon Plant Residues on The Plant Symbiosis of Arbuscular Mycorrhizal Fungi (AMF) In Phosphorus (P)-Limited Soils and The Role of Soil Structure in This Effect	16-19
DuckShield: A Machine Learning-Based Defence System Against USB Rubber Ducky Keystroke Injection Attacks	20-24
Bioinsecticidal Potential of Vitex negundo Fresh Leaf Extract Against Adult Mosquitoes	25-29
SmartGrid Village: Optimizing Paths with Dijkstra for Precision Geo-Mapping	30-36
Particle Image Velocimetry in a Transparent Plate Heat Exchanger	37-44
Study of thermodynamic properties in binary liquid mixtures through ultrasonic measurements at 298.15K	45-52
Cement Stabilization of a Tropical Expansive Clay: Effect on Plasticity and Shear Strength	53-59
Ore Modeling and Geostatstic for Grade Estimation of Gosu Gold Deposit in Qeissan Area, Blue Nile State, Sudan	60-68
Carpool Ride Sharing	69-73
Optimized Reaction System for Efficient Diethyl Phosphite Synthesis	74-77
Design and implementation of multi-functional portable massager for office workers	78-85
Synthesis and Antimicrobial Activity of Triazoleisothiazole Analogues	86-94
Enhanced Near-Field Channel Estimation in Mixed LoS/NLoS Environments for Extremely Large-Scale MIMO Systems	95-101
