

# International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 12 ~ Ser. 2

p-ISSN : 2320-9356

## Contents :

Microstructure and properties analysis of the brazing alloy prepared from recycled Mobile-waste	102-107
A Study on the Heat Affected Zone (HAZ) in Butt Joint Welding Using Manual Metal Arc Welding (MMA)	108-110
Developing A Distributed Shared-Key Cryptosystem Architecture for Decentralized Blockchain Transaction Security	111-119
TITLE	120-125
Use of Quantum-Based Algorithms in Environmental Monitoring: A Survey	126-130
A Multi-Normalization Framework for Single-Source Domain Generalization in Medical Image Segmentation	131-136
RetinaX AI – Retina Image Analysis Using Deep Learning and Explainable AI	137-144
Detection vs Design: Comparing AI-Generated Content in Dermatology	145-153
3D Level Set Image Segmentation Based on FastFCM	154-164
Development of an Innovative Solar Collector for Drying of Perishable Food Items in Rural Communities	165-172
Structure and Embedded System Design of Lettuce Intelligent Harvester	173-176
Design of a Multi-Functional Hair Washing and Healthcare Bed for the Elderly	177-179
Environmental Impact of Single-Use vs Reusable Double Lumen Tubes in One-Lung Ventilation: A Life Cycle Assessment Review	180-183
Design Specifications for Elderly-Friendly Assistive Dining Table	184-187
Intelligent Defect Detection Platform for High-Reflective Electrode Sheets	188-190
