

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 08

p-ISSN : 2320-9356

Contents :

Solving the "Double Problem" of Linear Accelerator Room Construction	01-10
A Gendered Perspective on Tribal Economy: Economic Aspirations of Gujjar and Bakerwal Women in Uri	11-15
Analysis of Factors Affecting Construction Quality in the Rehabilitation and Reconstruction Works of the Gumbasa Irrigation Canal	16-23
Stochastic Optimization of Renewable Energy Alternatives for Power Generation in Nigeria Using Markov Chain Modeling	24-29
Relationship between Machine Learning and Big Data: A Review	30-35
Enhanced Development of An Interactive Artificial Intelligence Liquefied Petroleum Gas Management System	36-45
Praying about praying in English and SWA-algorithm	46-48
Research on Technological Innovation, Regulatory Challenges and Social Inclusivity in the Field of Electronic Payments	49-53
Easy Money, Hidden Costs: A Detailed Look at How 'Buy Now, Pay Later' is Shaping the Financial Lives of Young Indians	54-58
General AI-Driven Payment Interaction Innovation: A Case Study-Based Analysis of User Experience and Business Efficiency	59-62
Seismotectonics of the Southeastern Area of Mu la Province, SW Anatolia, Türkiye	63-69
AI-based Phishing Detection System in Real-Time Network Communications using AVOA-CNN-LSTM Model	70-81
Real Time Implementation of Iot Enabled Solar Energy Load Management System for Rural Community (Usaka Umuofor)	82-87
Changing Cropping Pattern in Ganderbal District Of J&K: A Temporal Analysis with Crop Ranking Insights	88-92
A Critical Analysis of Child Labour in India- Issues & Challenges	93-107
