

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 13 ~ Issue : 08 ~ Ser. 2

p-ISSN : 2320-9356

Contents :

Review On Corrosion Protection by Conducting Polymers	108-116
From cognition to emotion: A literature review of the image construction of Dinghu Mountain as a tourist destination in the context of TikTok	117-120
Application of biometric technology in electronic payment security	121-124
Comparative Study of Non-Destructive Testing Methods for Failure Detection in High-Pressure Industrial Equipment	125-134
A Study on the Influence of Perceived Usefulness on Actual Usage of VR among Nantong Higher Education Institutions students	135-141
Human Capital Management in Design and Repair Teams: Motivation, Culture, and Productivity	142-148
Design and implementation of a physical therapy device	149-154
A Review on Innovative Sugar Sources in Fermentation Using Traditional Grapes and Purified Diabetic Urine as Unconventional Alcohol Bases	155-159
Aerodynamic Development of an FSAE Undertray: CFD Analysis and Wind Tunnel Correlation	160-171
Mitigating Drilling Hazards through Pore Pressure Prediction from Well Logs: An Environmental Risk Perspective	172-185
Mapping published studies on Polymer-Based Organic Semiconductor Materials: a bibliometric and thematic analysis	186-201
Research on the Contemporary Value and Pathways for the Transmission of the Red Culture of the Dongjiang Column	202-207
The Impact of Morowali Sea Sand as A Partial Substitute of Fine Aggregate on The Concrete Compressive Strength	208-218
Analysis Index of Pozzolan Reactivity on both Cassava Peel and Pulp Ash Using, the Modified Chapelle's Method	219-221
On the effective way to form a good teacher-student relationship	222-226
A Review of Concentrated Solar Power Technologies: Design, Performance, and Environmental Sustainability	227-236
