

International Journal of Research in Engineering and Science (IJRES)

e-ISSN : 2320-9364

Volume : 14 ~ Issue : 06

p-ISSN : 2320-9356

Contents :

Mobile-Desktop Channel-Mix Divergence in Lithuanian E-Commerce: Evidence from 500 Sites, 2022-2025	01-05
Optimization of an Enhanced Backwash Filtration System for Produced Water Re-Injection in Oilfield Operations	06-19
Sesame Plant as a Green Additive in Enhancing the Performance of Drilling Mud	20-27
Sub-Watershed Analysis using Geospatial Approach: A Case Study of Son Basin, Sihawal Area, Sidhi District of Central India	28-40
Surface Biofunctionalization of Titanium Implants by Anodic Oxidation: Microstructure and Biological Properties	41-44
The Emerging Barriers to Corporate Governance in Listed Entities in Zimbabwe: A Cross-Sectoral Analysis, Regional and International Benchmarking, and the Conceptual Insulation Model	45-66
QRify Secure: An Application-Agnostic Framework for Authenticated QR Code Issuance and Verification	67-79
Historic Building Conservation Study in the Old Port Area of Donggala Old Town	80-87
Analysis of Thermal Performance in The Prayer Hall of The Nurul Yaqin Mosque in Palu City	88-99
Analysis Of Factors Influencing Contractor Performance in The Construction of School Facilities Projects in Central Sulawesi	100-110
Generation of the infinite and orderly prime-number list through a ternary matrix yielding a logarithmic expression	111-115
Quantitative Assessment of Groundwater Resources using a Water Balance Approach: A Case Study from the Ummdukhun Locality, Central Darfur, Sudan	116-122
Synthesis and Antibacterial Activity of Tetrazolo[1,5-a]quinoline Analogues Linked with Pyrazolo[3,4-d][1,3]thiazole	123-131
Solar Energy Kinetics and Trends for Optimum Food Dehydration	132-159
Current Situation and Countermeasures of Core Competencies Cultivation of Business English Majors under the Belt and Road Initiative	160-168
