Abstract : *The aim of the paper is to determine that Big bang theory creating of the universe is 100% correct Researched by Mr.Satish Gore Sir.*

When second is not infinity. =∞ So, There nature rules over the universe. So then second is not infinity. =∞ Then sky is filled with more seconds. We have no time to count the time in sky so we are using infinity. =∞ So we should count the sky as one sky as A one element in the world So Don't call sky that infinity. =∞ .So sky is A one and unique. The sky is Mahakal and Mahakali

(Timeless) in Shivpuran. Both are one couple. At the starting there was only Hydrogen in the sky. The mass and the energy were with both together in the full form of the hydrogen.

First there was darkness everywhere in the sky. Then as the result of the gravitational force Hydrogen began to compress in the Hydrogen bomb. As the result of gravity energy released and it became Master star we call it Shiva Shakti / Dhruva polar star in Hindu puranas. light spread in the sky with the speed of 3,00,000KM s² in the sky but darkness is also Devi Mother Shakti can't be finished just now also there is Endless and infinity. =∞ darken sky. Day and night darkness and light are rules of the nature and God.

So light can't travel full sky. After many or infinity. =∞ light years

Cosmic dance of lord Shiva and Shakti .They are Mass and Energy bang and big blast happened. Energy and mass to give birth this universe. Greater speed than light the universe material was spread in the sky by the partition of a second was divided by 80 lakhs times.

Now we live in our solar system. We watch our night sky with beautiful moon and stars and galaxies.

Now Let's discuss about five main elements to live

1.Sky 2.Air 3.Earth 4.Water 5.Light (Sun) In our This , the nature is the god. So live happily , Non-violence , Truth and save our earth from pollution. All the world is my family. I. INTRODUCTION

Big bang theory creating of the universe is 100% correct Researched by Satish Gore Sir

Supported by $E=Mc^2$, $F=Ma$, Epics=Shivmahapuran , Vishnupuran,

Bible ,Quran, all physic rules

$E=Mc^2$

$E+Mc^2=2E$

$3,00,000 \times 3,00,000=c^2$

$E/M=c^2$

Big bang and big blast theory creating of the universe-Relegated words to understand meaning.

bang, loud, crack, to crash into ,bang, paste, wallop, whang, winder, bang, crash, collide, butt, bump, barge, collide, bang, bang, slam, bang, crack, bang, voice, sound, blast, tone, high-pitched blast, explosion, burst, eruption, blast ,destroy, blight, consume, demolish, blast, devour, blast blast, incineration, blast,

$E=Mc^2$

$E+Mc^2=2E$

$3,00,000 \times 3,00,000=c^2$

$2E/M=c^2$

$M=E/c^2$

$2E= 90,000,000,000 \times 90,000,000,000=$ Total Universe= $E+Mc^2=2E =8.10000000E+21=90,000,000,000EM \times$

$90,000,000,000EM$

$EM=ENERGYMASS$

90,000,000,000E X90,000,000,000E / 90,000,000,000M=90,000,000,000KM Only for one second creations of the universe god partly.

Speed to big blast and big bang

Total Energy=90,000,000,000 X 90,000,000,000 UKV

Total Mass=90,000,000,000 MKG

Total Distance speed of the light is 300,000KM/s

Total Universe is in the unlimited sky.

According to F=Ma

F = Force M=Mass a=speed in square

M=E/c² = M=F/a F=Energy

So here E=F and c²=a

E/c²=F/a

So total movement of "a" the universe is =c²=300,000 X 300,000

Now F=Ma

F= 90,000,000,000 X 90,000,000,000=90,000,000,000 X 300000 X 300000 E=Mc²

So F=Ma is controller formula for to keep the universe and E=Mc² is creator and destroyer formula for the universe.

II. RULES OF THE GRAVITY

Reference link <https://www.grc.nasa.gov/www/k-12/airplane/newton.html>

I. Every object in a state of uniform motion tends to remain in that state of motion unless an external force is applied to it.

II. The relationship between an object's mass m, its acceleration a, and the applied force F is $F = ma$.

Acceleration and force are vectors (as indicated by their symbols being displayed in slant bold font); in this law the direction of the force vector is the same as the direction of the acceleration vector.

III. For every action there is an equal and opposite reaction.

Law of Anti-gravity early researched by Mr.Satish Mahadeo Gore

The first Indian Gravity Controller - Anti gravity

I. The first rule of Satish Mahadeo Gore gravitational force is to keep the force of the moving object in the opposite direction in order to control the speed of any moving object.

II.The second law of gravity controller Anti gravity of Satish Mahadeo Gore

The force should be increased in the opposite direction given to increase the speed. You can do more with the force of the direction of the original direction. The speed can be controlled.

III. The third law of gravity controller of Satish Mahadeo Gore. The gravitational force works as well. The opposite gravitational force also works. The law of stability – by conquering gravity by anti gravity, applied the same force over an object in ten directions, the object remains constant in the sky ..Basis Newton's theory of gravity.

F= ma

2E=M E=M/2 So Total Energy is twice time greater than total Mass in the sky. Mass also having its own Energy in the form of gravity power . Energy also having it's gravity power.

2E=1M

Distance =Time X speed So

New formula Sky=timeXc²

Sky=timeXc²

1second Sky Distance=1 second X 3,00,000 X 3,00,000KMs²

=90,000,000,000KMs² If our sky is a time watch then It's one second runtime is =90,000,000,000KMs²

Than minute is 60 X90,000,000,000KMs²

Then 1 hour is 60 X60 X90,000,000,000KMs²

Then one day is 24 X 60 X60 X90,000,000,000KMs²

Then one year is 365 X 24 X 60 X60 X90,000,000,000KMs²=One light year=9.461e+12KM

(2.83824000E+18 On calculator)

Volume of the sky for only one second =4/3 XπXr³

Here We should take value of r=1 second sky distance (Using formula=E=Mc²)

Volume of the sky for only one second =4/3 X πXr³

=4/3 X 22/7 X 90,000,000,000 X 90,000,000,000 X 90,000,000,000

(3.05485714E+33 calculated by calculator)=Volume of the sky for only one second

Time is Endless and infinity.=∞

But second is not infinity.=∞

When second is not infinity,= ∞ So, There nature rules over the universe. So then second is not infinity,= ∞ Then sky is filled with more seconds. We have no time to count the time in sky so we are using infinity,= ∞ So we should count the sky as one sky as A one element in the world So Don't call sky that infinity,= ∞ .So sky is A one and unique.
