Volume : 9 ~ Issue : 7

p-ISSN : 2320-9356

Contents :

Design and Analysis of Motion Detection by using Open-Source CV	01-05
Impact of Lean Manufacturing on Process Industries	06-16
Improving analysis for Web Engineering based on MVC pattern	17-21
Effects of the cutting parameters on the distortion during the milling of the thin-walled part	22-28
The Better Comparison between PHP, Python-web & Node.js	29-37
Zero Energy Building with Natural Ventilation	38-42
Face Mask and Auto-Temperature Detector	43-47
Penetration Testing and Vulnerability Assessment	48-51
Risk Analysis and Management in MDR Construction Projects in Kerala	52-57
Sun Tracking Solar Panel Using Iot	58-62
Face Mask Detection using Viola Jones Algorithm the Real Time Screening System	63-65
Infrared Thermography for Orthopaedic Disorders by Image Processing	66-69
Conversion of dessert cooler in to air conditioner using peltier module	70-73
