

Contents :

The Local Fit Constants From Near Surface Seismic Measurements for Shear Wave Velocity Estimation in the Eastern Niger Delta	01-10
Three in one meter: A System for smart billing and power quantification	11-13
Geothermal Power Plants	14-17
Rights against Illegal Detention and Bail	18-28
Home Automation Using IoT	29-31
Schedular: A meeting scheduler	32-33
Performance, Combustion and Emission Analysis of Diesel Engine Using Different Bio-Fuels: DIESEL-RK	34-47
Smart Husbandry System	48-51
Crop Yield Prediction through different Machine Learning Algorithm	52-55
Design of a Read-Only Memory (ROM) creating square of an input using Threshold Logic Technology	56-65
lot Industrial Automation Using Raspberry Pi	66-70
