Volume : 9 ~ Issue : 8 ~ Ser.-5

p-ISSN : 2320-9356

Contents :

Ultrasonic Radar Using 8051 Microcontroller	01-04
New Compact Dual Band BPF with WIMAX Notch and Comparison of Losses with Microstrip	05-10
Performance of regular and sloped buildings using seismic loads	11-29
Implementation of Healthcare Chatbot Using Artificial Intelligence	30-36
Challenges and Solutions for Improving SSD Performance	37-39
A High Speed Combinational-logic Shifter using Threshold Logic Technology	40-50
Treatment of Pyogenic Granuloma by Surgical Scalpel Technique- A Case Report	51-53
Analysis and design of elevated water tank for different seismic zones	54-67
IoT Based Bus Seats Vacancy Unit for Roadways	68-72
Socio-Economic Condition and Environmental Problems of Dzuluk Village, East Sikkim Himalaya: A Geographical Appraisal	73-79
Android Based Fire Fighter Robot	80-83
Human Body Action Tracking and Recognition Using ELM Algorithm	84-89
